ABOUT

What is BidSphere?

A complete, professional-grade web platform for running live player auctions for sports leagues, tournaments, and associations. Every aspect of the auction — from player registration to the final sale — happens through a set of purpose-built screens, each designed for a specific role.

THE PROCESS

From registration to final gavel

01 **Teams Register**

Online form with email OTP verification. Admin approves and sets bidding budgets.

02 **Players Register**

Online form or bulk CSV import from Google Forms exports. Admin approves and assigns categories.

03 **Configure Auction**

Set categories, bid intervals, unit values, and visibility settings. Safety locks prevent changes once bidding starts.

04 **Auction Goes Live**

Commissioner calls bids from the panel. Hall screen shows everything to the venue in real time.

05 **Results Published**

Predictions scored automatically, leaderboard goes live, team squads finalised and published.

PLATFORM SCREENS

Six screens — one for every role

TENANT / EVENT MANAGER

Admin Dashboard

LIVE AUCTIONEER

Commissioner Panel

- → Manage events, teams, players, categories, associations
- → Approve registrations — bulk or individual
- → Import players from CSV (Google Forms supported)
- → Configure units, bid intervals, visibility controls
- → Safety locks prevent changes once auction starts

- → Select active player from the queue
- → Click team tiles to register bids — auto-increments
- → Countdown timer with reset on new bid
- → Min-honoring enforcement — blocks unfair bids
- → No-bid, bringback, lump sum, pause/resume tools

VENUE PROJECTOR DISPLAY

Hall Screen

- → Designed for large screens — readable from 20 metres
- → Active player photo, name, category, association
- → Live bid amount, bidding team, countdown timer
- → Team standings and recent sales list
- → Category progress statistics

TEAM REPRESENTATIVES

Team Dashboard

- → Live budget display — total, balance, keep-aside, max bid
- → Players won in each category with composition view
- → Other teams standings (admin-controlled visibility)
- → Accessible by passcode on any device

SPECTATORS & SUPPORTERS

Public Auction Viewer

- → No login required — anyone can watch
- → Active player display with full profile popup
- → Current bid and bidding team (admin can hide)
- → Team compositions and recent sales

FANS & COMMUNITY

Predictions Game

- → Predict which team gets each player before auction
- → Email-verified to prevent duplicates
- → Automatic scoring after auction completes
- → Live leaderboard — shareable on social media

KEY FEATURES

Everything an auction needs

Real-time Bidding

Bids, timers, sales, and standings update instantly across all screens simultaneously — no refresh needed.

Smart Budget Engine

Automatic keep-aside reserves ensure teams always have budget for their mandatory category minimums.

Fair Play Enforcement

Teams that met their category minimum are blocked from bidding if doing so would prevent others from reaching theirs.

CSV Player Import

Import from Google Forms exports — column mapping, Drive photo conversion, DOB format detection, duplicate checking.

Email OTP Verification

Every registration verified by 6-digit email code. Honeypot, rate limiting, and form tokens block bots.

Integrity Locks

Once bidding starts, unit values, categories, and date fields lock. Sold players are immutable — photo and location only.

Session Security

Admin sessions expire after inactivity. Commissioner gets overlay prompt — auction state is never lost on timeout.

Predictions Contest

Built-in fan prediction game with automatic scoring, live leaderboard, and shareable results link.

Any Sport

Configure categories to match your sport — Batsman/Bowler for cricket, Masters/Professional for throwball, etc.

Audit Trail

Every bid, sale, reset, and admin action is logged with timestamp, user, and before/after values.

BidSphere

Live Player Auction Platform

A utility by Loving Patterns · est. 1977

"Loving Patterns is a broader philosophy — a pursuit of meaning in the patterns of life. BidSphere is one of many practical utilities built under this vision, helping communities participate in the patterns that define their sports and social circles."
